DETAILED ACTION

Drawings

The drawings are objected to because Figures 2, 3 and 4 have legends that are not in the English language.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 5-9 are allowed.

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Brenneke (US 6,659,415) discloses an engine wherein compressed air is supplied to cylinders at starting.

Art Unit: 3747

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
